Dear Mr. Giordani:

I wish to thank you for the samples of "Militec 1". My organization does not provide endorsements for products and equipment that we use, but the positive experience I have enjoyed with "Militec 1" warrants special consideration, which I am pleased to announce is extremely good.

The three rangemasters assigned to me, including myself treated our weapons, which consist of S&W 4506s, 4566s, Olympic Arms AR-15s, Colt AR-15s and Remington shotguns with "Militec 1". Our discovery was an impressive degree of accuracy and our weapons operated smoother. They were easier to clean and did not seem to build up deposits. This is especially important since we experience very hot and cold conditions, along with blowing sand, which no doubt supports all claims that "Militec 1" does withstand all environmental effects.

I am very impressed with your product and our experience has been outstanding. Keep up the good work and keep "Militec 1" coming.

Sincerely

Lieutenant Joel Darby
District Seven; Taos
