I am Paul Elborne, Director of Exoma Press Ltd, Commercial Printers & Stationers located in Barnet, Hertfordshire.

We first purchased Militec-1 from Dewitte Ltd in July 2005, having read the literature on the oil additive product & the apparent savings to be made on our vehicle fuel expenditure.

Our vans operate daily in the London, Hertfordshire, Essex & Bedfordshire on both short & long runs & since introducing Militec-1 to our vehicle's, we have seen a significant reduction in our monthly fuel expenditure, which I would estimate at 15%.

This in turn, has had a direct & positive impact on Exoma's profitability.

I have no hesitation in recommending Militec-1 to other Business Vehicle User's as the benefits are clear & measurable to Exoma's reduced fuel expenditure.

Paul Elbore  
Director
