

Guideliner Hebridean Wildlife Cruises

The specialists in wildlife cruises in western Scottish waters

Guideliner plus Militec-1, What a team!

Hi, I'm David Leaver and the environment is my business.

For very close to thirty years I have been cruising the Scottish waters through the Western Isles to enjoy the abundant wildlife there and share that enjoyment with my clients.

I now use Militec-1 for two very good reasons:

1: Less fuel used is less pollution created!

2: Lower running costs is good for my clients!

Our environment is fragile and I'm doing my best to protect it, Militec-1 is helping me!
