Hi Peter,

I confirm that I have place Militec 1 into my Suzuki Grand Vitara V6

The results on fuel consumption are excellent I have increased my MPG by 12.8% as at 17th Nov 05. there is a little variation depending on the type of miles that I actually drive. Open road is by far the best in my car.

Very best regards and thanks for information regarding this product.

Lloyd Dalton-Brown

Regional Partner BRE

Annual mileage approx 27,000
