With reference to your product Militec-1.

I am Paul Hibberd, TEP, APFS, Registered Trust and Estate Practitioner and driver of a BMW 7 series.

On a previous and regular journey from Hertfordshire to Nottinghamshire return (188 miles), I used half a tank. I can now drive on to St. Alban's, a further 27 miles, with the same amount of fuel. So on a long run the fuel economy is certainly 10% (maybe a bit more). I also take some satisfaction from the fact that by reducing fuel consumption this product reduces harm to the environment.

Yours

Sig. co File

Paul Hibberd
