MILITEC
SUITE 1100
900 17th ST. N.W.
WASHINGTON, D.C. 20006
ATTN: BRAD

Dear Brad:

Thank you for the samples of Militec. All the test samples have been used and the results are, I am pleased to announce, extremely good.

The U.S. Shooting team's in depth analysis of the tests are ongoing, however I personally found that Militec oil gives an 11% increase in accuracy in the Olympic R.F.(.22 cal) Match Pistols when tested. These tests were conducted with a variety of different lots of ammunition. Two of our Olympic contenders are at present using Militec, however the Olympic rules prevent a direct endorsement.

The U.S. Shooting team tests involve the application of Militec to the new "Ultra Match" ammunition, at present being produced. The results look promising and I expect to be able to report progress in the near future.

Brad, thanks for the samples of Militec, I am looking forward to receiving more shortly. I am very impressed with the quality of your product and the excellent results that we have received to date.

Sincerely,

Terry Anderson, Advisory Council,
U.S. Shooting, Team.
